

30-Point Reception Quality Checklist

Introduction

This Checklist will help you review the quality of the experience offered by your reception team based on 30 key factors that matters to guests.

Ratings

The scoring system used in the checklist is based on a simple smiley face rating scheme:

If you wish to use this tool as a **Yes/No** checklist:

- Choose the Red Smiley for 'No' and the Gold Smiley for 'Yes'.

To use the Checklist in a **weighted or graded** way, you can:

- Score the Red Smiley as being 'Unacceptable', Orange Smiley as meaning 'Below Expectations', Green Smiley as 'Meets Expectations' and Gold Smiley as indicating 'Above Expectations'.

Alternatively, you can apply any labels you wish to the smiley faces.

Scoring

To score the checklist, for each section simply add the column totals to give a section score. You can calculate the section percentage by taking your actual score for the section and divide it by 30 (or less if you choose any N/A options. For each N/A option selected reduce the potential score for the section by 3 each time).

To get an overall score for the checklist, just add the three section totals together and divide by the total possible score ($30 \times 3 = 90$), again reducing by 3 points for any N/A options selected.
